FUND DESCRIPTION

This fund aims to track the price of annuities i.e. if long-term interest rates fall, the value of this fund will increase to roughly compensate for the rise in annuity prices as it invests in long dated bonds. This fund invests in long-term corporate bonds and eurozone government bonds. These bonds have repayment dates of ten years or more. The returns on these bonds come from a combination of the interest paid and any capital appreciation or depreciation on the value of the bonds.

Warning: If you invest in this product you may lose some or all of the money you invest.
