FUND DESCRIPTION

This fund invests in a blend of indexed bonds, including government and corporates, trying to match the movement in annuity prices. The bond mix is reviewed periodically and can be updated if a mix that better matches annuity prices can be achieved. This fund aims to broadly follow the long-term changes in annuity prices due to interest rates which are just one of the main factors that determine annuity prices. However, there could be times when the fund will not track annuity prices closely and the fund is not guaranteed to track annuities prices.

Warning: If you invest in this product you may lose some or all of the money you invest.
