The Balanced Fund

A sub-fund of Summit Mutual Funds plc

This fund is managed by Summit Asset Managers Limited.

Objectives and Investment Policy

This fund aims to achieve steady capital growth over the medium term.

The fund seeks to achieve its investment objective by investing in equities (shares) and bonds (loans that pay a fixed or variable rate of interest) with a credit rating by Moody's Investor Services of higher than 'A3' or Standard & Poors of higher than A-. The fund will have at least 33% of its assets in deposits with financial institutions and bonds issued by governments.

The fund is actively managed and the Investment Manager will use its discretion in selecting appropriate investments for the fund that conform to the stated investment policies for the fund. The fund is not managed in reference to a benchmark.

This fund may not be appropriate for investors who plan to withdraw their money within a period of 5 years.

Any income the fund generates will be reinvested to grow the value of your investment.

You can buy and sell shares in the fund on any business day (days that the banks are normally open for business) in Ireland.

The fund may invest in derivatives (complex financial instruments) such as index future contracts, forwards, options and swaps rather than investing directly in the underlying security. The derivatives return is linked to movements in the underlying asset.

The fund is classified in this category because of higher price movements.

The fund is also subject to risks which are not included in the calculation of the risk-reward indicator associated with the following:
