What is this product?

Type

This is an investment fund established as a Company With Variable Capital (SICAV).

Objectives

Investment objective The Sub-Fund aims to reflect the performance of the J.P. Morgan ESG Government Bond Index - Emerging Markets Global Diversified EUR Unhedged Index (the "Index") and it will measure its performance against the Index.

Investment policies The Sub-Fund is passively managed and aims to deliver returns similar to the Index whilst investing in debt securities.

For this, the Sub-Fund will primarily invest directly in sovereign bonds issued by governments of any country that is classified as an emerging market in the Index ("Emerging Market" countries). The Index offers broad exposure to local currency denominated Emerging Market government debt with a term to maturity greater than 6 months. At time of purchase, such sovereign bonds will also be constituents of the Index, or be expected to become constituents of the Index, and therefore investment will be made on a global basis.

The Sub-Fund shall invest not less than 85% of its assets in constituent of the Index but may vary from this target, on a temporary basis and if this is in the best interest of the shareholders, depending on market conditions, high volume of subscriptions in the Sub-Fund or other factors outside of its control (such as, but not limited to, a rebalancing of the Index).

The Sub-Fund may also invest in index futures contracts, forwards, options, and swaps for cash management and cash equitisation purposes, or as an alternative to acquiring the underlying or the related securities where such investment provides an exposure to the Index or to the securities comprised in the Index, and may be accomplished in a more efficient or less costly way through the use of derivatives.

The Sub-Fund may invest, subject to a maximum limit of 10% in aggregate of its net assets, in UCITS and other UCIs.

Investment in Russia is not intended to constitute a significant portion of the Sub-Fund's investments, and will not exceed 15% of its net assets. Any direct investment in Russia will only be made in securities that are listed/traded on the Moscow Exchange.

The Sub-Fund may also invest in debt and debt related securities in the PRC traded in the CIBM through the Bond Connect, as further described in the sub-section headed "China-Hong Kong Mutual Access Program".

The Sub-Fund will engage in securities financing transactions, namely Securities Lending. The Sub-Fund will only engage in Securities Lending for efficient portfolio management purposes.

The Sub-Fund takes Sustainability Risk and ESG characteristics into account as part of its selection process. In that respect, the Sub-Fund promotes environmental and/or social characteristics.

Benchmark The Sub-Fund is passively managed and tracks the J.P. Morgan ESG Government Bond Index - Emerging Markets Global Diversified EUR Unhedged Index to achieve similar risk-return characteristics to the Index, to ensure effective tracking of that Index.

Redemption and Dealing You can buy and sell shares in the fund on any business day (days that the banks are normally open for business) in Luxembourg.

Distribution Policy Any income the Sub-Fund generates will be reinvested to grow the value of your investment.

Launch date The Sub-Fund was launched in 2021. The share class was launched on 13/12/2021.

Fund Currency The reference currency of the Sub-Fund is EUR.

Conversion of units/shares Investors may switch between funds of Beresford Lux SICAV. The Directors can charge a fee up to a maximum of 5% of Net Asset Value of Shares in the original fund. The Directors do not currently intend to charge any conversion fee and will give one month's notice to Shareholders of any intention to charge such a fee.

Intended retail investor

This product is intended for investors who plan to stay invested for at least 5 years and are prepared to take on a medium-low level of risk of loss to their original capital in order to get a higher potential return. It is designed to form part of a portfolio of investments.

Term

The Fund is open-ended and has no maturity date. Subject to the liquidation, dissolution and termination rights of the board of the Fund as set forth in the Fund prospectus, the Fund cannot be automatically terminated. The PRIIP manufacturer, Waystone Management Company (Lux) S.A., is not entitled to terminate the product unilaterally.

What happens if Waystone Management Company (Lux) S.A. is unable to pay out?

The Management Company has no obligation to pay out since the Fund design does not contemplate any such payment being made. You are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depositary. Should the Fund default, the depositary would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,

■ 10,000 EUR is invested.

Example Investment 10,000 EUR	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	548 EUR	815 EUR
Annual cost impact*	5.5%	1.5%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.5% before costs and 0.9% after costs.
