12 Weeks
- > **Location:**
Abbey Street
Dublin 1

Who we are

Irish Life is one of Ireland's largest financial institutions with a presence across a range of financial services markets, serving over 1.3 million people. For over 80 years, we've helped people in Ireland embrace change and build better financial futures through innovative products and a dedication to customer care.

Irish Life Investment Managers (ILIM) is the investment management arm of Irish Life. ILIM is Ireland's largest asset manager, with c. €128bn in assets under management. We provide fund management services to a large domestic and multi-national client base and investment products to both institutional and retail clients. We offer a full range of products from our value-driven active and indexed fund management processes.

How the programme works

We are big on personal and professional development and strive to ensure that you can gain the best experience possible. We work hard to ensure we provide the best service to our customers, and we have a strong focus on career development while ensuring a balanced lifestyle.

During this 12-week internship programme, we will offer you the opportunity to work in one of our main areas of business – Investment Management and Investment Distribution – where you will gain experience and exposure to many of our business activities. You will have the chance to immerse yourself in the day-to-day running of Ireland's leading investment firm, working alongside experienced professionals. You will also have the opportunity to broaden your professional and peer network by attending networking and social events.

Find out more about what we do [here](#).

Aside from hands-on, on-the-job experience, you may be involved in research and development initiatives, analysing key market trends and business developments. You will also be given the opportunity to present to the senior leadership team at the end of the summer on your experience with Irish Life Investment Management, highlighting your learnings and observations during your time with the business.

We will provide you with consistent support and supervision during your internship period and you will have access to experienced professionals while you develop your knowledge and understanding throughout the programme.

What we look for

During our recruitment process, we will be looking for the following:

- > Hardworking with a drive for achieving results
- > A good problem solver, who can demonstrate their thinking process
- > Highly organised with a keen eye for detail
- > A real team player who understands how working together is better

We welcome students from a diverse range of backgrounds. What we ask is that you have an interest in, and passion for, investment.

What we offer

- > A paid 12-week internship with Ireland's largest asset manager
- > Mentorship with experienced professionals
- > Career development opportunities
- > Networking and brand development opportunities
- > Workplace wellbeing supports and events
- > Social events

How to apply
